

Intelligent and simplified control whose main function is communication with wireless security devices.

WICKET DOOR WIRELESS SAFETY DEVICE

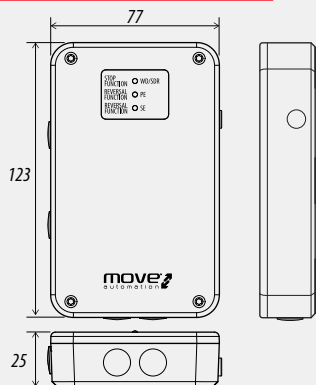

WIRELESS PHOTOCELLS

WIRELESS OPTICAL EDGE SENSOR

TECHNICAL DRAWINGS

FEATURES

- Receiver for wireless safety devices.
- With a compact design, it has been created to provide reliable and wireless security solutions for garage doors and gates.
- Allows wireless communication with wireless security devices using multi-frequency technology.
- Compatible with: wireless photocells; wireless service door security device and wireless optical sensors.

TECHNICAL FEATURES

POWER SUPPLY	12-24 V AC/DC
NUMBER OF RELAYS	3
SIGNAL MODULATION	FSK
FREQUENCY	409.025 MHz ~ 458.4 MHz
RADIO TECHNOLOGY	Trio-Frequency
OPERATING TEMPERATURE	-20°C ~ +60°C

PACKAGING

Package size: 100*170*38mm
Package weight: 0,161Kg
