

**Security and precision**

With a range of up to 12m, this photocell ensures the detection of objects, even bright ones.

TECHNICAL DRAWINGS**FEATURES**

- Easy installation, you only need to wire the transmitter.
- Can safely detect any reflective object.
- Range up to 12m.
- High degree of protection IP56
- Round reflector with polarizing filters and cover.
- Kit includes fixing accessories.

TECHNICAL FEATURES

WORKING VOLTAGE	AC 9~24V (50/60Hz / I _{max} =35mA)
WORKING CURRENT	≤35mA@12VDC / <19mA@24VDC
WAVELENGTH	740nm
WORKING RANGE	≤ 12m
WORKING TEMPERATURE	-25° ~ +70°
AMBIENT LIGHT INTENSITY	max.5000Lux
RESPONSE TIME	≤30mS
DIMENSIONS	100*40*35mm

PACKAGING

Package size: 162*105*60 mm

Package weight: 0,214 Kg
