

**Protection against power outages**

During a power outage, access to or from your garage can be critical.

Keep your family safe with a battery backup hooked up to garage door operator.

TECHNICAL DRAWINGS**FEATURES**

- Using lithium battery to drive the motor, after 72 hours of power failure, the motor can still operate normally.
- Motor Standby power: 0,2W/H
- When powered on, reverse charging is implemented, and the full charging time ≤ 4 hours
- High energy density
- Longer lifespan
- Low self-discharge rate
- Lightweight and compact
- Lower maintenance
- Two installation methods. Side or Top

TECHNICAL FEATURES

CAPACITY	2000mAh 44.4Wh
INPUT VOLTAGE	24 V
STANDBY DURATION	± 7 days
STANDBY POWER(WORKING STATE):	max. 30.00uA
WORKING TEMPERATURE	-40°C ~ +85°C
PCM INTERNAL RESISTANCE	≤ 60.00 m Ω
MAX. CONTINUOUS CHARGING/DISCHARGING CURRENT	≤ 10 A
WEIGHT	0.3Kg
RENDIMENTO	80 cycles (with Force+ 1000)

PACKAGING

Package size: 93*158*42mm

Package weight: 0,426Kg
