

### Heavy Duty

Robust and powerful solution for automating large and heavy sliding gates. Provides the strength and reliability required for gates weighing up to 4000kg.

## TECHNICAL DRAWINGS

## FEATURES

- With its powerful performance and robust design, the Strong 4000Kg Heavy Duty sliding gate motor is an excellent choice for those looking for a reliable and efficient solution to automate large and heavy gates.
- Galvanized steel housing offers durability and exceptional weather protection.
- Three-phase automation with integrated control unit and inverter simplifies installation and operation by providing a user-friendly interface for managing the gate automation system.
- A convenient and safe key unlocking system allows manual movement in the event of a breakdown or failure in the electricity supply.
- For commercial use.
